**For Immediate Release**

**COMMAND INFORMATION APPOINTS GREG SLOAN TO LEAD  
COMMERCIAL SECTOR BUSINESS DEVELOPMENT**

**Greg Sloan Joins Next-Generation Internet Company as Senior Vice President**

HERNDON, VA, Sept. 6, 2006 – Command Information ([www.CommandInformation.com](http://www.CommandInformation.com)), the largest pure-play IPv6 solutions provider in America, today announced the appointment of Greg Sloan as senior vice president of business development. Sloan will be responsible for growing and maximizing client opportunities in the commercial sector. In addition, Sloan will establish a formal partner program and launch the company's channel sales initiative.

With more than two decades of industry experience, Sloan has a proven track record of planning, designing and implementing IT solutions for leading U.S. companies. Sloan previously served as a Senior Vice President of Sogeti, a subsidiary of the Capgemini Group specializing in professional services. Sloan led business development and operations for the Sogeti's Washington, D.C. territory, overseeing sales, recruiting, consultant development, client relationship management and financial controls.

"Command Information's commercial customers demand complex solutions that make use of leading-edge technology and proven business processes," said Tom Patterson, chief executive officer of Command Information. "Greg's ability to translate complex business problems into winning IT solutions is an extremely valuable addition to our current client offerings. He will also act as chief advocate for our clients, making sure that solutions delivered benefit their business, partners and customers."

Greg's established relationships among America's leading companies combined with his experience in building and growing strategic partnerships, will better position Command Information to support the burgeoning demand for custom solutions in the commercial market. Custom solutions currently offered by Command Information include Application Development, SOA, Business Intelligence, Business Process Management, Network Architecture and Management, and Security.

Before joining Sogeti, Sloan held senior executive roles at AT&T, Lucent Technologies, and Avaya. As a vice president at Avaya, Sloan developed and executed Avaya's Strategic Alliance and led Avaya's world-wide sales and negotiation efforts with IBM.

**About Command Information**

Command Information ([www.CommandInformation.com](http://www.CommandInformation.com)) is the largest pure-play IPv6 solutions provider in America, offering strategy, tactical direction and application development services for Fortune 1000 companies and government organizations seeking to move to the fast-emerging new version of Internet protocol. The Herndon, VA-based company focuses on the six key areas required to leverage IPv6: IPv6 training, transformation, and strategy, application development, application and infrastructure security, mobile convergence and telematics, business and information strategy, and network architecture and implementation. Command Information's Application Development practice is led by Digital Focus ([www.digitalfocus.com](http://www.digitalfocus.com)), a leader in agile software development and integration services.
